

Corporate Actions for H1 2011

CORPORATE ACTION(S) RELEASED IN H1 2011

The information on all corporate actions is captured on www.proshareng.com under each company's dedicated web page.

The summary produced here serves as an aide memoiré for all who seek the report in a complete state and for further work.

We recognise the need to have the information in a searchable format and have incorporated this need in the new proshare website that will be released in the market this July.

The information here should be compared with the forecast submitted by the listed firms' (though most submit such forecast long after the period to which it relates is almost done with while others simply do not comply and do not get sanctioned for same.

We anticipate that the new market that is unfolding will place 'process-driven emphasis' on the timing implication inherent in the requirement for periodic performance results (audited and un-audited) as well as forecasts in the bid to make our markets more information sensitive.

The information provided in the following pages was sourced from the NSE directly and have been taken from the proshare website. \odot

JANUARY 2011
